It must be borne in mind that this is the work of the 15 carriers alone. For instance, the total collections of 103,893 pleces of mail matter during January were made by the carriers from the street boxes, and do not at all include the enormous quantities dropped into the boxes at the postoffice. In all, the 1 and 2 cent letters mailed in this city during January amounted to 260,000. The total revenue of the office during January was \$6906; expense, \$2160; clear profit, \$4746; per cent. of revenue allowed for expenses, 31—for a city in which there are now 10,000 strangers. Unchanging Allegheny City, Pa., gets 71 per cent.

REAL ESTATE.

Despite the predictions of croakers that a dry season would knock the real-estate fundament out, the month of January was a highly prosperous and lively one. The sales amounted to almost five million dollars—at the exact rate of \$59,731,044 for 12 months, which is double the figures of 1886.

For the mouth ending January 31, 1887, the transfers of real estate in Los Angeles county, as filed in the Recorder's office, aggregated as follows: 385 transfers for a nominal consideration; 764 under \$1000, aggregating \$336,151; 705 between \$1000 and \$5000, aggregating \$1,574,176; 134 between \$5000 and \$10,000, aggregating \$957,335; 71 over \$10,000, aggregating \$2,09,925; total, 2006 transfers, aggregating \$4,977,587; average consideration per transfer, \$2982.

The business transacted in the office of the County Clerk during January was re-markable, as shown by the following receipts for fees: Civil business, \$778.30; probate, \$658; miscellaneous, \$325.50; total, \$1761.80. This represents not over one-half of the actual work of the office, as the insane, riminal and supervisorial business is transacted free.

In connection with this statement the following exhibit of the work done in the effice luring the two years of Clerk Dunsmoor's neumbency (ending December 31, 1886) will be found instructive:

Cases commenced including eints for fees: Civil business, \$778.30; pr

Cases commenced, including probate, civil and criminal, 1965; insane commitments, 82; articles of incorporation, 101; receipts as per fee-book, 886,450, an average of \$1518.75 per month; number of cases disposed of in Department 1, Superior Court, 550; ex-parte motions, 6000; number of cases disposed of in Department 2 (judgments and decrees), 642; ex-parte motions, 5500; examinations as to sanity, 150. Besides this, Clerk Dinsmoor has been in attendance on the Board of Supervisors one-fourth of his time. No wonder the people cry for more courts!

During January the popular steamers of the Pacific Coast Steamship Company carried 146 passengers from this city to San Diego, and 722 to San Francisco and northern way-ports—a total of 868. That means tickets and in this city. Enough were sold in San Patro to bring the total up to 1000. The number of arrivals at San Pedro during the same period was not obtainable yesterday.

growth of Les Angeles business in general. Started about 16 months ago, running into a country upon which there was hardly a standing stick of lumber, it has built up a really starding patronage—not to mention a really remarkable town on the hills. During January, 1887, it carried 44,288 paying passengers, as against 18,839 during October; 36,122 during November; and 40,382 during December, 15,451 during October; 36,122 during November; and 40,382 during December. If that isn't a healthy and remarkable growth, where shall the same be found? At the rate of January's business, the road will carry over half a million passengers—53,456, to be exact—during 1887.

The Temple-street road declined to furnish yesterday a statement of its business.

The City Gas Company is laying \$40,600 worth of new pipe in addition to the present system, and will add a new plant which will increase the present capacity of 250,600 cubic feet daily by 500,000 cubic feet. The number of new meters put in during the last three months has averaged from three to five a day.

MRS. CATCHING'S CONCERT.

A Very Interesting Musicale at the First Baptist Church.

A large and appreciative audience attended the concert given last night at the First Baptist Church, by Mrs. Nannie Catching and her pupils. The following interesting programme was rendered:

Overture, "Chevalier de Breton" (Orchestra)—Messrs. Schaus, Harris, Jones, Alger, Babcock, Hubbard and Mrs. Catching.

Plano Duet, "La Sultana" (Kontski)—Misses Mary Hayes and Lucille Catching.

Vocal Solo, "When the Quiet Moon is Beaming" (Schondorf)—Miss May Wirt.

Saxaphone Solo, "Fantasie" (Demeresseman)—Mr. H. C. Alger.

Messrs. Harris and Mead.
Piano Solo, "Valse in E" (Durand)—Master Frank Waiter.
Scotch Ballad, "Bonnie Sweet Bessie" (Gilbert)—Miss Mabel Luitweiler.
Piano Duet, "La Danse de Cuban" (Gottschalk)—Misses Kinney and Denny.
Ladies' Quartette, "Spring Song" (Orchestral Accompaniment. Two flutes, violin, clarionet, sboe, cornet, cello and piano)—Misses Luitweiler, Kinpey, Wirt and Mansfield.
Most of the pieces were enthusiastically encored, which made the performance last until quite an advanced hour. The vocal pieces chosen by Mrs. Catching displayed her fine voice to great advantage, and her pupils showed remarkable proficiency. Mr. Alger's saxaphone solo was beautifully played and received with great applause.
Altogether this concert was undoubtedly one of the musical successes of the season and reflect great credit upon Mrs. Catching.

The St. Elmo Change.
The sale of the St. Elmo Hotel to Rose &
Bilderrain was concluded yesterday, the
lease being assigned. The new firm is now
in possession of the establishment and proin possession of the establishment and propose to give their personal attention to it. It is understood that the price, including fixtures and stock, was \$21,500. In appreciation of the valuable help in the hotel, the new firm retain the entire force at an increase of wages. Geo. O. Ford, the always popular boniface who retires, kept the house seven months, during which he greatly increased its favor with the public and doubled the patronage of the corresponding period the year before. Mr. Ford will remain in Los Angeles and will probably engage in other business. A man of his energy and acumen is bound to make himself feit.

Santa Ana Auction Sale.

The fourth auction sale of lots at Santa
Ana, managed by the Los Angeles and Santa Ana Land Bureau, was a great suc-cess. Nearly 400 people went from this city to the beautiful town of Santa Ana by city to the beautiful town of Santa Ana by excursion yesterday. Seventy-five lots were sold at the auction in about two hours, by H. H. Matlock & Son. The aggregate price obtained for these lots was \$25,525, or an average of \$430.33 per lot. This is said to be the highest average price ever obtained for lots sold at auction in the Santa Ana for lots sold at auction in the Santa Ana may Valley. The highest price obtained for a single lot was \$55, while \$190 was the lowest. Santa Ana may well feel pleased with the appreciation of her advantages, which is now being shown by the "outside world."

town, and the lots are practically all sold.

Mr. Shorb will soon subdivide an adjacent
tract and put it on the market. It is now stated that the Pullman Palace Car Com-pany will join the Southern Pacific in the erection of shops there. The Southern Pacific has begun work extending the Shorb spur to Pasadena. It is believed by many that the main line of the Atchison, Topeka and Santa Fé will cross the Southern Pacific at Romona, to avoid the heavy grades at the western part of the Los Angeles and San Gabriel Valley. Acre property around an Gabriel Valley. Acre property around camona is jumping like the Irishman's flea.

Yesterday's TIMES noted the arrival in this city of 21 full-grown ostriches in charge of E. P. Hoyle. They were from Natal, via Galveston, and were taken to Washington Galveston, and were taken to Washington Gardens for exhibition. Cawston & Fox have leased these gardens and will make there a pleasure resort. The gardens have been tastefully laid out by M. F. Brown, whose plans for the grounds at the New Orleans Exposition were accepted. The gardens are now open to the public, and the ostriches can be seen in all their glory.

THE NEW AND IMPORTANT COAL BEDS AT ELSINORE.

About the Railroads and What They Are Doing-Roberson, the Insane Suicide-Matters of Minor Mention.

John D. Hoff, the fortunate discoverer of he extensive coal deposits at Elsinore, was the extensive coal deposits at Elsinore, was in the city yesterday on his way home from San Francisco, where he has been to buy a plant for mining. While north he had his coal thoroughly tested by experts. It showed up better on analysis than the Seattle coal which is being shipped into San Francisco by the cargo. The Elsinore coal gives 10 per cent. of ash and the Seattle coal 18 per cent. The Elsinore article contains 41 per cent. of inflammable gases as against 33 per cent for the Seattle article. The Elsinore coal is a true lignite, of the tails 41 per cent. or infinitimatic gases as against 38 per cent. for the Seattle article. The Elsinore coal is a true lignite, of the same formation as the favorite Gallup coal, and Mr. Hoff, who has investigated the Gallup mines carefully, is satisfied that he has a better article. He is in partnership with John Dolbeer, a well-known San Francisco capitalist, and they control 400 acres of coal land, the present vein being 4 feet thick. The plant which Mr. Hoff has just purchased will enable them to mine 200 tons daily, and they promise to have their coal on the market within 60 days. The plant is to be shipped from San Francisco today or tomorrow. Mr. Dolbeer will reach Elsinore in person by Saturday. The mine is 4 miles from the California Southern Railroad, and 3 miles from the lovely and growing town of Elsinore. H. B. Wilkins, general freight and passenger agent of the California Southern Railroad will visit the mine in a few days, to see about the practicability of running a spur to it.

Mr. Hoff further states that a big sewer-

Mr. Hoff further states that a big sewerpipe manufacturer of Des Moines will engage in the manufacture of cement sewerpipe on an extensive scale near the mine, where there is a vast deposit of the best clay. The clay of Elsinore has become widely famous.

The opening of extensive beds of good coal in San Diego county will be a big thing for all Southern California.

There is nothing startling in the railroad

world, and the following brief budget covers about all there is of local interest: covers about all there is of local interest:

THE NEW BRIDGE.

The 1500-foot bridge of the Los Angeles and San Gabriel Valley across the San Gabriel River is now complete, havingbeen finished yesterday. It is one of the finest pieces of trestlework in California, and is built to stay. The big timbers are put 10 to 14 feet into the hard ground.

ACCIDENT IN THE DESERT.

The Calico Print says: "Last week Pat McGinty, a fireman on one of the A. P. engines, was oiling his engine while stopping at Bagdad, when the engineer started up the locomotive, not knowing the fireman was underneath the same, which resulted in crushing McGinty's leg above the knee in a very severe manner. Dr. Rhea is attending to the unfortunate man, and thinks he may succeed in saving the limb from amputation."

### SPIKES.

The first of the Southern Pacific's cheap excursions to San José and the Santa Clara Valley starts today.

A committee appointed by the Mainstreet and Agricultural Park Railway Company to estimate the cost of turning the line into a cable road, double track from First street to Washington (10,000 feet) reports that the expense would be about \$240,000. It can be lessened if the Low or Grimm grips are used.

The advance guard of the Southern Pacific Railroad Company is reported to be encamped at San Luis Rey. It is also reported that the engineers will lose no time in mapping out the line to this city. Meanwhile the Atchison road is being rapidly extended south from Santa Ana to its proposed connection at Oceanside.—[San Diego, Sun.

More of the Insane Suicide's Unhappy

The following additional facts have been learned about George B. Roberson, the probably crazy merchant who cut his throat when arrested for training. when arrested for trying to burn his store. Last August, after the suicide of his brotherin-law, Jeff. Bassett, the Brenham (Tex.) banker, Roberson and his sister went to Dallas. Bassett had given dying direct Dallas. Bassett had given dying directions that his wife should lend \$5000 to her brother (Roberson), and she did so. With this money he built a grain elevator at Dallas. Just as it was finished and before he got it maured, it burned down, leaving him penniless and \$5000 in debt. He got his life insured for \$5000 and tried to commit salicide, that his sister might have the many he owed her, but was frustrated. He married a model wife last September and came here.

The Phantom Stage.

Prof. Sherman exhibited at 86 South Main street last night a remarkable contrivance of his own invention, which he calls "the phantom stage and illusions." It is designed for theatrical use, and certainly produces some of the most startling effects conceivable. Figures on a full-lighted stage melt and resume visibility in a very uncanny way. Figures walk through each other, and scenes change without a sign.

MEDICAL INHALATION COMBINED WITH CONSTITUTIONAL REMEDIES.

My treatment of the diseases of the respira-ory passages consists in the employment of Medical Inhalation, for its direct effects on the diseased organs; and, at the same time, dopting such hygienic measures, and admin-stering such medicines by the stomach as will most effectually purify the blood, give one to the nervous system, and build up and trengthen the general constitution. In other words, I employ combined local and general reatment.

words, i employ combined iteas and general treatment.

What is Medical Inhalation? Before stating briefly what Medical Inhalation is, I propose, in as few words as possible, to state clearly what it is not.

Medical Inhalation is not a cure-all, a nostrum, or a panacea. It is not a Specific Remedy for any disease. It is not a quack medicine, advertised to cure any or all the ills that flesh is heir to, and intended to fill the pockets of its proprietors. It is not a talisman, whose possession insures health to its possessor, without the intervention of either sense or judgment. Medical Inhalation is none of these things.

ites is heir to, and intended to fill tine pockets of its proprietors. It is not a talisman, whose possession insures health to its possessor, without the intervention of either sense or judgment. Medical Inhalation is none of these things.

Medical Inhalation is simply and solely a method of taking medicines by inhaling or breathing them into the lungs, instead of swallowing them into the stomach. By Inhalation, the proper medicines are applied directly to the seat of the disease, in the nose, throat or lungs; and it is clear to every reasoning person how peculiarly applicable Inhalation is in the disorders of the organs named. If you have scalded or burned the surface of the body, or wounded any limb or member, you do not swallow the remedy intended to heal the disorganized tissue. On the contrary, you apply it directly to the seat of the wound or injury. Why, then, when suffering from catarrh of the nasal passages or throat, or afflicted with ulceration of the lungs, should you rely on medicines taken into the stomach? Medical inhalation not only applies the proper healing remedles to the seat of the disease, but it applies the remedy in the gaseous or vaporous form, in which form, as is well known, medicines act most powerfully. How much grather, for example, is the effect of a drachm of chloroform, when inhaled or venorous form, in which form, as is well known, medicines act most powerfully. How much grather, for example, is the effect of a drachm of chloroform, when inhaled or venorous form, but he diseased, but it applies the remedy in health of the many other substances. By inhalation the medicine is not reached, than many times the quantity when swallowed into the stomach. The same is true of chlorine, of iodine, and of many other substances. an inhalation in the treatment of pulmonary diseases. To such an extent is this true that no patient should intrust his case to any physician who is not well prepared and thoroughly equipped with everything necessary for the administering of the proper remedies by the method of Inhalation.

The numerous cures effected have

method of Inhalation.

The numerous cures effected by Inhalation in cases seemingly past all help, and the uniform success attending its use in diseases of the respiratory organs, renders it obligatory or seef to get a payed at once apply his content of the respiratory organs, renders it obligatory or seef to get a payed at once apply his content of the respiratory organization of the seef at least bound to decline to treat such cases.

Among the most eminent physicians of the age who are fully awakened to the value of Medical Inhalation in these diseases are the following: The celebrated Dr. Burdon-Saunderson; Dr. La Roche, of the Paris Academy of Medicine; Dr. Frederick Langhaus, of Berlin: Drs. Klebs and Tommasi-Crudeli; Sir Archibald Dickson, of Edinburgh, Scotisnd; Dr. Bichler, Dr. Cameron, Dr. Gurdon Buck, Prof. Albert Lehert, the celebrated Dr. Hughlings Jackson, the venerable Dr. Robert Dickinson, Prof. Thierfelder, Spencer Wells, Dr. Hilton Flaggs, Dr. G. P. Wood, Drs. Fritsch and Hitzig, Dr. Fothergill, Dr. Richard Thompson, Dr. R. S. Carpenter, Drs. Anste, Ball, Fuller, Lancereaux, Krauss, Huguenie, Heller, Orth, Corrigan, Fenwick and many others. With scarcely a single exception every medical authority of eminence recognizes the wonderful potency of this new method, and the coming generation of physicians are certain to be thoroughly educated therein. At present it is only a few physicians here and there who have made "Diseases of Respiration" a life study that are fitted in any way to employ the wonderful resources of Medical Inhalation in the cure of these diseases.

THE CURABILITY OF CONSUMPTION.

For five years the celebrated Dr. I. H. Bennet was pathologist to the Royal Infirmary of Edinburgh, and in his great work on "Consumption" he makes the following statement: "During this period I made upwards of post-mortem examinations of persons dying from varies of light was constantly "During this period I made upwards of 2000 post-mortem examinations of persons dying from vari-us diseases, and I was constantly meeting with cases in which I found cavities in the lungs from consumption, which had evidently healed up or cleatrized years before the death of the subject. Nature did not seem to have been successful in restoring the wasted lung-substance, but the cavities were dried up, the progress of the disease arrested, and the subject lived for years, with diminished lung power it is true, but otherwise in good health."

A \$900 LOT GIVEN AWAY!

To make an interesting feature of the saile, one lot will be reserved TO BE GIVEN AWAY to those who have been purchasers. No condition is attached to this gift other than that all the lots shall be sold. As soon as one-half the purchase price of each lot has been paid, the buyers will themselves agree as to the manner in which they shall dispose of it, and the owner will make a conveyance of the same without any expense to the fortunate one receiving it. I desire to have it districtly understood that this lot is to be a gift, pure and simple, and that there is no lottery scheme connected with the sale of the lots. Each and every lot will be sold separately, and when every lot has been sold the reserved lot will be placed in the hands of the buyers, to be disposed of as they see fit, either to sell it and divide the proceeds or draw for it among themselves in any manner they chose.

We positively guarantee a fair, straight, clean sale and entire satisfaction. This sale is made to sell the property, and presents the best opportunity ever offered in this city for obtaining one of the best of lots at less than value, on reasonable terms and the advantage to some one of a \$500 lot for nothing.

If you do not already know the property, so and see it, on the Main and Jefferson street car line or in the free carriage from 30 S. Spring st. or 111 W. Pirst st.

WAR TALK in Berlin has a touch of saltpeter in it, mynheer. THERE is a story in London that

Boulanger, French Minister of War, has resigned.

An important land case, affecting the Rancho Lomas de Santiago in this county, is reported in our dispatches this morning.

THE Southern Pacific people give it out that they intend to push their branch road through to Santa Barbara as rapidly as possible. DELEGATE CAINE, of Utah, testifies

THE rapid accumulation in Los Ange les of emissaries from the heathe abroad-to wit, the tribes to the north ward—is a great compliment to the enticements of Sun-Land, where the tourist and the tenderfoot most do congregate.

IT looks now as though it will be Assistant Secretary. Fairchild, not George H. Pendleton, who will succeed Secretary Manning in the Treasury The appointment of Pendleton, with his "snivel-service" record, would make the spoils-loving Democrats howl with rage.

An Idaho paper says that jack-rabbits shipped from Oregon and Idaho to turn up in the market as canned chicken, and are shipped back to the country from whence they came as such. This is a very neat stroke of enterprise on the part of Chicago. The conejo de jack is a great traveler.

We have high authority for doubting the story that five inches of snow covers the streets of Oakland. The real-estate agents of that town are in the hurling business, and they hurl back the base insinuation into the teeth of the Los Angeles real-estate artists. who are alleged to have started the Arctic story.

SENATOR MOFFITT introduced a bill to prevent policemen from interfering in politics in all the cities and towns in the State having a police force of more to prevent the removal from office of police officers for political or partisan rea sons or causes. The bill is intended for Oakland, but will not hurt Los Angeles if applied here.

THE strike of 'longshoremen, freight handlers and kindred workmen in New York grows in dimensions, and the situation is becoming more and more serious. Business along the river front is measurably at a standstill, and railroad and steamship freight is piled up unprecedentedly, on account of lack of men to handle it. The strikers, it is said, are preparing a "plan of cam-paign," which has for its central idea the Irish scheme of refusing to pay rent, but instead to pay money into a fund to be used to support strikers in idleness. The strikers propose to defy attempts at eviction. The scheme will hardly work. Non-union men are coming in to fill the gaps, and the strike. mately fail.

The Westward Growth of Cities

It is an old observation that cities grow more rapidly in a westerly direction than in any other, but the reason for it have not often been discussed. Of course, the rule could not apply where there are insurmountable obstacles at the west, as mountains, or broad waers. A fair test of the tendency would be where the facilities for extension are equal in all directions, and it is in such cases that the fact has been no-

The tendency of emigration to the westward has been so often observed as to have lead to the saying, "Westward the star of empire takes its way." Movements of population in the oppo-site direction have seldom occurred. It has been further observed that the migrations of peoples are on lines of latitude and not on lines of longitude. But it is quite natural to adhere to the climate and temperature with which one is familiar, which will account for

Movements of population to the west ward were common in the Old World long before the time of Columbus, and in America the same has been the tendency almost without interruption. Already the tide has swept across this continent, and is breaking against the Pacific shores. The advent of a few Chinese here from across the ocean, rather confirms, than disproves, the theory. They are not immigrants at all, they are mere sojourners, and soon turn their faces to the west again.

The course of the heavenly bodies from east to west may have more influence upon the movements of popula-tion on our globe than at first appears. It would be most natural for a person in taking an evening walk to bend his steps towards the light and cheerful west, rather than towards the dark and somber east. One seeks pleasure in the direction of the illuminated heavens, and not where darkness pre vails. It is not too much to say nineteen out of every twenty of the inhabitants of a city, in going forth for ecreation after the toil and heat of the day, other things being equal, will avoid the darksome east; and to whatever direction the people, from any cause, are attracted in that direction will the city grow.

The setting sun and western glo have always been fascinating to the romantic and social mind, and people who congregate in cities partake largely of that character. The opposite sentiment would lead to seclusion, to caves and to darkness, and if it prevailed there would be no cities-no growth of

cities in any direction.

The flow of the tides is daily around the earth from east to west, and that would have some tendency to bear all objects, mankind included, in that direction.

The diurnal revolution of this plane is from west to east, but we would not be willing to say that that naked fact has anything to do with the movements of mankind upon its surface. But the prevailing winds, the trade-winds, as a rule sweep, from the west to the eastward, and they may produce a marked effect upon cities. The smoke and foul air of a large population would soones be cleared away by such wind from a western suburb, and that of itself might instinctively give direction, in some degree, to a city's growth.

None of these reasons apply with any considerable force to Los Angeles, which, as a city, is eminently free from all the objectionable influences that operate upon the growth of cities.

### Water and Sewerage

A LADY CORRESPONDENT writes to THE TIMES for information-for use among eastern friends-regarding the She says that she has a friend in the East who writes that some gentlemen who are spending the winter in Los Angeles have written to eastern papers asserting that Los Angeles is on a level with the sea and "never can have good sewerage"; also that "the water has to be boiled and often acts as a cathartic," etc. Our correspondent wants facts to controvert these assertions. (1.) Los Angeles is not on a level with the sea. (2.) The sewerage is defective, but not impossible of being remedied, by any means. (3.) It can be so improved that the sewage can be carried into the plains toward the sea, there to be used as a fertilizer. (4.) The boiling of water is the exception, not the rule. Some of the inhabitants never drink water, so that its quality is a matter of no consequence to them (5.) There has recently been a material improvement in the quality of the city's water supply, which is now brought by means of a closed flume instead of through open zanjas, as formerly, thereby the better preventing its con tamination.

### Dark Delusions.

A friend sends to THE TIMES an extract from an eastern correspondent's letter, and asks us to refute its errone ous statements concerning California The writer appears to be filled with the mistaken notion that "the overpro duction [of oranges] so feared Florida has already become a fixed fact in California." We quote:

factin California." We quote:

"Looking down from the Raymond on the valley of San Gabriel," he says, "all around me are vineyards and orange groves, and under the trees of the latter millions of oranges lie rotting on the ground because they don't pay for the picking." And still newcomers from the East are pressing on to pay from \$100 to \$300 per acre for land in the valley which 20 years ago could have been bought for 10 or 15 cents, with the hope of making money by raising oranges for an imaginary market!

This is an example of the kind of

who supposes, because he sees oranges
lying under the trees, that the market

such things as "windfalls" in
orange groves, as there is poor all fruit, of any variety, is perfect and fit for the market. There is no over-production of good oranges in California, and the markets are real not imaginary. As to the correspondent's remarks about the advance in the prices of lands, they are not far out of the way. San Gabriel Valley lands are

worth more than they were 20 years

ago-rather more. A SPECIAL to THE TIMES from Sar Francisco throws more light on the frantic efforts of the people up country to seize a slice of the Southern Cali-fornia boom. Oakland has found it necessary to get indignant and deny that her streets are covered to the depth of five inches or five feet, with snow; Santa Clara is reaching out toward Los Angeles, and the Southern Pacific Railroad of Kentucky has organized a series of cheap excursions. from Los Angeles to San Francisco with the purpose of enticing away some of the thousands of people who are pouring into Sun-Land, and inducing them to cast in their lot with the quinine-eaters of the Northern Citrus Belt. This is all right, gentlemen; but you should deal gently with the stranger within our gates. Do not seize him by the throat and drag him away from the region of his choice against his will. Give him a show for his life.

THE mercury is sliding around on snow-shoes, between 30 and 35 degrees below zero in St. Paul. That is to say the mercury, not the snow-shoes, is on the down-grade, as aforesaid. these hyperborean operations are progressing, look at the state of things in California—the winterless land! Sunshine, flowers, and an incomparably genial climate all the winter through. St. Paul should imitate Northern California and send emissaries to Los Angeles. Perhaps she could get up a boom for the Minnesota Citrus Belt?

A DRY YEAR, should one come to this country, will not be the unmixed evil that some of the constitutional croakers are wont to predict. Drought will injure the grass and grain crops on the uplands—there is no denying this fact -but it will not greatly affect the paramount agricultural and horticultural interests of the county. The grape, citrus fruit, nut, corn and alfalfa crops will be little injured by the absence of rain; and these are our main dependence.

New York, Feb. 2.—[By the Associated Press.] The streets along the river front this morning presented a Sunday-like appearance. Instead of the dally rush of vehicles of all kinds in every direction, there were only a few trucks and horse cars to be seen, and a majority of the big railroad freight receiving and delivery piers were closed, and work was almost suspended. The exception was in the case of pier 5, of the Pennsylvania line, where a dozen men were put to work. The men seemed lost among piles of freight. Also at the New York Central and Erie piers a few men were at work. This plan has been discussed in all seriousness by the strikers, and it is asserted positively by some of them that it will be put in operation next Monday. The defendants are part of the Bell Telephone Syndicate and well as various other habor and trade organ-izations, by capitalists and corporations, an attempt to strike a fatal blow at organized labor and thereby increase their power to oppose producers and degrade honest toil, therefore
"Resolved, that we, the representatives of the combined districts of Knights of Labor of New York, New Jersey and Connecticut to service in connection with these lines by which Philadelphia business men will be placed in direct speaking communication with any of the subscribers to the telephone exchange in New York and surrounding villages and clites in New York, New Jersey and Connecticut, numbering in all over 1500 stations. The plaintiffs claim that they bought the exclusive right under the patent to use and make metallic circuits throughout the United States for a term of 17 years from February, 1881; that they have expended large sums of money in perfecting the system, but that the defendants are violating this exclusive right. It is claimed that the rapid application of long distance telephone to modern business purposes renders the prospective value of the owner-ship in the metallic circuit to be contested in the courts, second only to that of the telephone itself.

Anarchy Rampant in a Town of Colorado.

Republican Officials Summarily Ousted from Office

and Compelled, at Pistol's Point, to Resign.

The Outlaws Headed by a Democratic Sh Arson Added to Other Outrages—An Appeal for Aid to the Governor

By Telegraph to The Times.

DENVER (Colo.), Feb. 2.—[By the Associated Press.] Pagosa Springs, the county-seat of Conejos county, is in a state of anarchy. A mob has driven the county commissions from the town, burned eseveral houses of Commissioner Scase and forced him to resign his office at the point of a revolver. A special from there says: "J. B. Martinez, J. P. Archuleta and Mr. Scase, the Republican County Commissioners, were. on January 3d, unseated by a Democratic sheriff named Height. The act was perpetrated from political motives, and the mob which followed the Sheriff after having accomplished the act of intimidation, burned the house of Mr. Scase at Pagosa Springs. This last act was committed on Monday, during the absence of Scase in Denver. Last November the above-named commissioners were absence of Scase in Denver. Last November the above-named commissioners were elected by Republican votes. At the same time a Democrat named Height was elected sheriff. There was great feeling at the polis, but the preponderating Mexican vote assured Martinez, Archuleta and Scase their rimph over the attacks of their antagonists. They were Mexicans, and this, too, added strength to

THE BITTERNESS PREVALENT. The feeling increased instead of dimin-ishing as the time of their introduction into ishing as the time of their introduction into office approached, and on January 3d, at the county-seat, at the time for their official appearance, an armed mob of 15 or 20 determined men, lead by Sheriff Height, forced their way into the room where the Cemmissioners were seated and demanded of them that they veate their seats. The Sheriff insisted that their resignations be made at once, else their would be bloodshed. The Commissioners mistaking the temper of the mob refused under the impression that the demonstration was nothing more than bluster, but the mob, intent on their purpose, took forcible possession of the Commissioners and, with more threats, locked them in the room, declaring it to be their purpose to starve them into subjection. their purpose to starve them into subj At the time of the forcible entry a m Martinez, left the room and eser the building. DRAGGED HIM THROUGH THE STREETS to the courthouse and locked him up his companions. Finally, at the expi his companions. Finally, at the expiration of five or six hours, the mob permitted their prisoners to go, but the concession seemed to be for a purpose. As soon as the three Commissioners separated the mob, with the Sheriff still at their head, followed Commissioner Scase to his home. Scase was proprietor of a hotel at Pagosa Springs, and it was here that he resided. The mob surrounded the hotel, and, taking Scase again in custody, he was dragged forth from the midst of his family, and with a gun-barrel at his head was compelled to resign his office as Commissioner. The resignation was at once forwarded to Gov. Adams and instructions sent with it that he appoint at once a Democrat in the place of Scase. Since that time the Board has not met, no instructions sent with it that he appoint at once a Democrat in the place of Scase. Since that time the Board has not met, no laws have been enforced, and a condition of things bordering upon anarchy has prevailed. The Commissioners have not been permitted to set foot in the county since the day they were warned at the peril of their lives not to return. In fact, it was dangerous to remain in the vicinity, and so they started at once to Denver, not only for protection, but to lay their grievances before their Representatives in the Legislature and before the Governor.

### A LAND CASE.

The Secretary of the Interior Renders an Important Decision. WASHINGTON, Feb. 2.—[By the Associated Press.] The Secretary of the Inof N. B. Harrison, acting in behalf of cer tain settlers, asking that suit be brought to secure title to lands for which a patent had previously been issued for the Lomas de Santiago, in Los Angeles county, Cal., on the 10th of December last. The decision says that in 1875 a similar applica-tion was made to the Department. Suit was brought in the United States Circuit Court of California, and the allegations in Court of California, and the allegations in the case were the same as those now made to the Secretary of the Interior. It says that considering that the conduct of the land authorities was extraordinary and beyond comprehensior, depriving the government of 2,000,000 acres of iand, the fact that the court dismissed the bill in the case and concurred with the Commissioner of the Land Office in dismissing Harrison's present application, seems to make the entire matter res afudicata. In concluding fits letter to the Attorney-General, the Secretary of the Interior says: "Hewever, should you differ from me as to the law of the case, and think that the public interests require that such suit be brought, any information in this Department will be promptly furnished you when called for."

A Rochester Reformatory Burned. ROCHESTER (N. Y.), Feb. 3-Morning. Fire broke out in the steam laundry conceted with the female department of the State Industrial Home at 1:30 a.m., a spread like wildfire throughout the build-ing, which is a fine structure, four stories in height. The inmates were all rescued. The loss will reach \$60,000, with no insurance.

### OUR NEIGHBORS.

Eagle Rock Valley.
A CHOICE SPOT IN THE SUBURBS.
EAGLE ROCK VALLEY, Jan. 30.—[Corre ondence of THE TIMES.] Near the great, owing City of the Angels as we are, our growing City of the Angels as we are, our valley, which is one of the most lovely spots on earth, we have all the advantages that Pasadena had to commence with. We have all kinds of soil and land-valley land, forther had and land wet land, dry land, frostless land and land where it does frost. The soil is unsurpassed for retaining moisture and developing grain and vegetables without irrigation. Last season we planted all of our vegetables after the rain. They reached perfection, yielding immensely without rain and without irrigation. As an example of what our valley produces and to prove conclusively that small farming pays, we will give the experience of Mr. P. W. Parker, who came from Chicago little more than a year ago and who never had any experience in farming whatever.

He planted 3% acres of cucumbers, from

year ago and who never had any experience in farming whatever.

He planted 3½ acres of encumbers, from which he sold \$350 worth. He sold \$70 worth of potatoes from one acre. He set out 1½ acres of tomatoes. He has already sold more than \$100 worth. He trimmed the vines back a few weeks ago, and they are now yielding enough so that he realizes 1 per day from them at present. They have remained uninjured by frost, and have had no irrigation.

are now yielding enough so that he realizes \$1 per day from them at present. They have remained uninjured by frost, and have had no irrigation.

Now, any doubting Thomas who will come out can have the above figures corroborated to his entire satisfaction, and if he don't know the way he can come out the Pasadena road till he arrives at or opposite the Highland Park schoolhouse, then turn to the left, come 9 miles, and you are in one of the prettiest valleys in this sunkissed land. We are only 6 miles from the metropolis and 3½ miles west of Pasadena. Those who live up near the foot of the mountains obtain water by tunneling into them, where they obtain the purest of water, which is cold as ice all the year round. Those who live in the level part of the valley obtain pienty of water at a depth of 10 and 12 feet. There are two artesian wells, that of Mr, Galpen, and that of E. Brown, who is making an immense reservoir on his hill, to which he will force the water for irrigating purposes. Mr. Lehman has a flow of more than an inch of water from his tunnel.

I think our new \$1000 schoolhouse has never been mentioned in your columns. It is now completed, and is an ornament to our valley, as it would be to any other locality. Our school is in a prosperous condition under the management of that very efficient teacher, Miss flutchings.

We have religious services every other Sunday by Rev. Cash, and have Sabbath school every Sunday, in which all manifest great interest, as all are church-going people, and no more earnest workers in good causes can be found in the world than can be found in our little village.

Mr. Peter Backman will erect a commodious hotel, in connection with which he will run a livery stable.

Mr. Townshend, of Pasadena, has erected a cottage on his farm here, which he now occupies.

A Mr. Thrackelton, of your city, has purchased some of our best land and is erecting.

A Mr. Thrackelton, of your city, has pur-hased some of our best land and is erecting neat cottage thereon.

Mr. Wickard, of East Los Angeles, has purchased the Sheridan land and built a

omfortable house.

Mr. Galpen has built a new house, which occupied by Milton Brown.

cottage.

Mr. Johnson has donated a lot on which to erect a church, and with our land insmall lots at \$100 per acre to \$250 with water, we are on the verge of a boom, which will increase to immense proportion as soon as it rains.

Alhambra. EVERYTHING LOVELY AND THE GOOSE

ALTITUDINOUS. ALHAMBRA, Feb. 2.—[Correspondence of THE TIMES.] Alhambra has 42,830 bearing orange and lemon trees.

The Times.] Alhambra has 42,820 bearing orange and lemon trees.

Col. J. R. Dobbins once or twice a week comes across the line from San Gabriel, in his handsome new turnout, to fondle the fine piece of real estate of which he is the fortunate possessor in our pretty town.

It is anticipated that this morning's train will bring a large excursion from Los Angeles to participate in the sale of the Outhwaite tract, one of the many handsome pieces of real estate for which Alhambra is noted.

The Book Club held their monthly gathering, Friday, at the residence of Rev. Geo. White. During the entire evening the gentlemen were under the powerful influence of the subtle essence of beauty that surrounded them, while the beauties themselves were singularly happy in exchanging literary ideas with their willing victims.

With Ramona as a car-shop town, Alhambra rejoices in the renewed assurance that she will receive great benefit thereby, and still remain the favorite, among all others, as a superior residence location. We have no jealousy for our sister town, as success for one means prosperity for the other.

Mr. Mortimer Goff, the fortunate purchaser of the Bryson property, has made additions to his already commodious resi-

ser of the Beyson property, has made littons to his already commodious resi-ice, and is still further beautifying his disome grounds. He left for Chicago araday last to return soon with his fam-, who will aid him in the enjoyment of y, who will aid nim in the enjoyment of s California home. The war-cloud in Europe is but a speck in imparison with the somber obscurity that ing over Gardenia street one day last seek. Diplomacy was in vain, as the de-endant of Adam concluded when the

cendant of Adam concluded when the emaic occupant of the throne brought out er little gun, remarking at the same time: The street shall not be widened in front of

my property. It is needless to and that the street remained intact.

Railroad surveyors' stakes are as thick in Alhambra as military titles in Los Angeles. Our nice young man is terribly mortified when he tunbles over them while walking out with his best girl these moonlight evenings. The corner-grocery-store lounger is happy in the delusion that he alone is the oracle possessing the key to the whole situation, while the ideas of the community at large can be easily realized by a single giance at a pattern supplement to Harper's Bazar, which illustrates to perfection their views as to how the several lines will pass through our town.

FRUIT AND GRAZING LANDS

IN SAN LUIS OBISPO CO. FOR SALE.

Two thousand acres, eight miles east of "Paso Robles Springs" and seven miles from railroad. About 400 acres is bottom, the balance rolling land. The soil is deep and rich. No irrigation is necessary; the rainfall is sufficient. We better climate in the State; is twenty miles from sea-coast; is free from the cold fogs and bleak winds that prevail near the coast, and is free from the intense heat of the interier valleys. The land is covered with bunch grass, clover and allileria, the most nutritious of all native grasses. The land is especially adapted to fruit growing and grazing, the best two branches of farming in California. The "Huer Huero" creek passes through the center of the hand, in which there is running water the year round. There are also two springs of as pure water as can be found, separated about a mile from each other. On the bottom land there is an ever-growing supply of willow trees. Oak trees are in abundance all over the place. At two dollars per cord there is at least \$10,000 worth of wood on the land. Price, \$15 per acre; \$15,000 cash, balance on time. cash, balance on time.

# MONTE

# VISTA TRACT

Has more advantages and fewer disadvantages

Than any other tract in Southern California.

### Monte Vista is Situated

TWENTY MILES NORTH OF LOS ANGELES, FOURTEEN MILES WEST OF PASADENA, EIGHT MILES EAST OF SAN FERNANDO. FOUR MILES EAST OF THE S. P. R. R.

And on the line of the proposed road from Pasadena to San Fernando. Elevation, 1500 feet above sea level. Practically frostless and fogless. Air perfectly pure and dry. Pure water unlimited and piped on the tract. Unsurpassed soil for all the productions of Southern California. with especially favorable conditions for the perfect cultivation of the

> CHERRY, FIG. ORANGE AND LEMON, APRICOT, PEACH AND PRUNE, RAISIN AND. WINE GRAPES.

### MONTE

With its pure water, dry air and delightful situation, between the Verdugo and Sierra Madre Mountains, offers the greatest possible advantages to the invalid, particularly those suffering from catarrh, asthma or consumption. Monte Vista, as a location for a home, with all favorable climatic conditions, and with the greatest inducements to horticulturists, cannot be equaled anywhere. See every place you have heard of, learn all about them so that you can judge accurately,

## Then Go to Monte Vista,

The gem of the mountains, and find it in the balance against all other tracts combined; and if it does not prove to be all that we represent it, do not buy. A magnificent new hotel is now under construction. Excellent accommodations at the present Monte Vista Hotel. Stage three times a week from 30 S. Spring st.

700 ACRES

DIVIDED INTO ONLY

1400 LOTS.

Price of Lots, \$150 Each. First Payment, \$20.

Succeeding Payments \$10 Monthly, Without Interest.

The entire tract is beautifully situated, with a charming view, pure air and water and perfect drainage. The Ostrich Farm Dummy Railroad runs through the tract, with a five-cent fare guaranteed to and from the center of the city. This road will be completed to the tract July 1, 1887

Size of lots, 50x150 feet up to 5 acres. The average size of lots, half an acre. The uniform price of these lots is placed at \$150; first payment \$20 cash, with succeeding payments of \$10 per month, without interest. This is a splendid investment for a very small amount of money.

Pure and abundant water piped through all the streets.

When \$100 has been paid on each lot, the entire number of lots will be distributed among the purchasers, on the same plan as that on which the Childs tract was distributed.

This tract is situated upon the hills, which are rapidly becoming the most desirable residence portion of the city. The soil is a warm, sandy loam, free from frost, being in what is known as the warm belt. The elevation is such that the temperature is more even than in the city.

Free carriage to the tract every day from the office of the agents. Maps and circulars and all information can be had from

#### BUSINESS.

Los Angeles, Wednesday, Feb. 2. No improvement has occurred thus far is week in Wheat. The market is dull.

Remands.

Several carloads of Oranges have arrived in San Francisco this week, and prices are dightly off in consequence.

Advices from San Francisco say that the market for Honey is dull and weak. The principal sale lately was of two carloads of shoice extracted, for the East, which brought tents are round.

4 cents per pound.

The coinage at the San Francisco Mint for January was as follows: Half eagles, \$1,800,000; eagles, \$740,000; total, \$2,540,000. The total coinage for December was \$3,000,000.

Being a young man, he had not uttered a word: but Mirabeau, he says, "looked me full in the face with his eyes of wickedness and genius, and laying his broad hand on my shoulders, said, 'They will never forgive my superiority.'"

Richelieu was as vain as he was ambitious. Upon his personal activity he especially prided himself. A nobleman of the house of Grammont one day found him jumping, and with the savoir faire of a Frenchman and a courtier, offered to jump against him. He allowed the Cardinal to jump higher, and soon found himself favored with an appointment.

The little experience he has previously had enables him to form a pretty good idea of what are the best dishes, but the length of the bill, or rather the variety of the dishes, seems to puzzle him, and he is a long time in making his selection. There are some who are greedy enough to call for almost every dish on the bill of fare.

CONCRIT OF GENIUS.

The Egotism of Some Sotable Charters of History.

(Exchange)

Senator Morrill has just published an interesting book, entitled "Self-Consciousness of Noted Persons." It is a book new to the public, and contains some unique and interesting an ecdotes of famous men in all ages and countries. Here are some specimen bricks:

Napoleon once said: "There is nothing in war I cannot do with my own hands. After all that I have done, he exclaimed one day, as if to stop the mouth of a flatterer, "is it anything compared with what Christ has done?" He told Las Casas that it was after storming the bridge at Lodi "that he first conceived he was to do great things." Said Napoleon one day, when returning from parade: "Bourrienne, do you hear those acclamations which still continue? They are as sweet to me as the voice of Josephine." Continued success made Napoleon excessively vain. A courtier once said that "God made Napoleon, and rested." Bonsparte, it is said, did not think the utterance blasphemous, or even exaggerated.

John G. Saxe, one of the wittiest of modern poets, met a friend some years ago just as he was coming out of the sanctum of the Boston Post. "I have just left," said he, "with Col. Greene the finest sonnet that has been written since the days of Sir John Suckling."

James Russell Lowell, in his younger days, gave utterance to the following: "There's Lowell, who's striving Parnassus to climb, with a whole bale of isms tied together with rhyme; "There is nothing the strip of the Boston Post. "I have given the continue of the sanctum of the Boston Post. "I have interested and the chances are that when being or exercise. Go course, one detect. The fact the side thusines is all nonsense. He might get on alone spite of brambles and bowldees.
But he can't with that bundle he has on his shoulders.
The top of the hill he'll ne'er come nigh reaching.
Till he learns the distinction between sing ing and preaching.
His lyre has some chords that would ring pretty well.
But he would rather by half make a drum of the shell,
And rattle away till he's old as Methusa-selves.

"Once in a while a young man brings a modest-looking young lady into our place. She is perfectly at ease, but he has a patronizing way about him. They are engaged, perhaps, but while she is worth two of him her social position is not so good.

"I don't know which has the hardest time of it with these gastronomic cranks—the waiter or the cook. Of course, it gives the cook more work, but he never hears the abuse which is showered upon him by epicures who are not satisfied by the display of skill. But we have to stand all that, and there are some people who seem to think we are responsible for the work done in the kitchen.

"I am an Englishman by birth, and when I lived in that country I followed my present business. I have seen people there who were what we might call professional eaters. But to please an Englishman's taste, be he peasant or peer, is to see that his beef is done to a turn and that his ale is good. I believe the English race care more for what they drink than what they eat.

"It is impossible, as I said before, to give any idea as to the favorite dishes among good eaters. These are as various as the dress and personal appearance of the people themselves. I can tell you one thing, male waiters are a mistake. The work, in the first place, seems to belong to women, and there is no man but likes to see pretty women floating through the room while he eats. I believe this is the chief reason why so many young men prefer middle-class hotels and regular boarding houses to fashionable restaurants." fashionable restaurants.

THE NEW INDIAN POLICY.

Civilize Him by Treating Him as Human.

(Chicago Inter Ocean.)

The way to civilize the Indian, or anybody else, is to treat him in a civilized way. The Dawes Indian Bill proceeds simply and confidently on that principle, but between the Indian Rights Association and the Indian Defense. Association this bill came near slipping into the Congressional waste-basket. Both of the philanthropic associations named are composed of men who are sincere in their friendship for the Indian. But there appears to have been a serious misunderstanding of the provisions of the bill on the part of the last-named organization. Dr. Byron Sunderland, the 'President's pastor, declared that he wished there might be "a wall of admant as high as the stars and as permanent as heaven erected around the Sioux Reservation." However desirable that kind of everlasting isolation might be, it is no more possible than it would be for the timid Doctor to fence in a part of the sky above his own little garden wall. His motive was no doubt good enough. He is anxious that no wrong should be done the Indian, and that he should not be deprived by force or fraud of any of his natural or treaty rights.

But the fact is that Dawes' land-inseveralty bill, as it originally passed the Senate, gave to the President the right to allot land in severatly to individual Indians on the reservations, tending to encouring age Indians to move out from tribal relations, and, as individuals, to be-

inalians bit the reservations (another inalian and the reservations) independently of the consent of the tribe—
a wise provision, tending to encourage Indians to move out from tribal relations, and, as individuals, to become industrious and civilized men—but the bill did not give the President the right to break up that portion of the the reservation not taken up by individual allotments, but vested the same in a tribal patent, to be held by the United States for a period of 25 years, and at the expiration of that time to be conveyed to the tribe. It was further made lawful for the Secretary of the Interior to negotiate with the Indian tribes, and in conformity with the treaties or statutes under which the reservations are held, to provide for the sale of surplus lands upon conditions which might be agreed upon by the United States and the tribes. These provisions were designed to encourage provisions were designed to encourage individual Indians to take up land in severalty, and at the same time to pro-tect the Indians as tribes from a hasty

and ill-judged cession of territory or one irrespective of their consent. Then, again, as to the Sioux Indians, the Dawes Sioux bill provides for tak-ing from the Sioux Indians 11,000,000 acres of land only after the consent of of three-fourths of their male adults, in conformity with treaty provisions, has been obtained. "The Indians are to receive, in compensation for the large tract of land ceded by them: 1. Not more than 25,000 head of first-1. Not more than 25,000 head of first-class American breeding cows, and not more than 1000 bulls of like quality; these cattle to be issued under such regulations by the Secretary of the Interior as will best serve the interest of the Indians. 2. One million dollars; this sum to be deposited in the United States Treasury as a permanent fund to the credit of the Sioux Indians; the interest of that sum at 5 per cent. [this has been amended by the House Committee to 3 per c nt.] to be used by the Secretary of the Interior for the benefit of the Indians. Half of the sum realized by the yearly interest will furnish industrial and other education to the Indians, and the other half will be emindustrial and other education to the Indians, and the other half will be employed in such manner as the Secretary of the Interior may deem best adapted to advance the Indians in civilized pursuits. 3. The educational provisions of the treaty of 1868, not in conflict with the provisions of this act, are continued in force according to their tenor and limitation. 4. The tract of land which it is proposed shall be ceded by the Indians to the United States is to be sold to actual settlers at the rate of 50 cents per acre. From the fund thus realized per acre. From the fund thus realized the compensation to be acres. the compensation to be given the Indians, and specified above, is to be drawn. The remainder of this fund, arawn. The remainder of this fund, after all necessary expenses to which the government may have been put by the sale of the land have been met, goes toward the increase of the permanent fund."

On the whole therefore, we believe the new policy is one essentially just and kind for the Indian, as well as fer

### STANLEY'S MISSION.

Emin Bey the Hero He Is Going to Rescue, if Alive.
[Boston Advertiser.]
When Khartoum fell, and the knightly fanatic, Gordon, lost his life, the eyes of the world no longer turned to the Soudan. With the death of the hero the romance of the Nilewas closed hero the romance of the Nile was closed so men thought, until the message of min Bey, from the last British strong-old in the heart of the Dark Continent, appealed for help. To succor him the expedition now forming under Stanley

will go out.

Like Napoleon and other born leaders. Gordon chose his aides well. From his vice-regal seat above the cataracts of the Nile he sent forth chosen lieuten-

of the Nile he sent forth chosen lieutenants to form dependent provinces and combat the inroads of Zebehr, Tippu Tib and the crew of the slave-hunters who were harrying the native chiefs of the Soudan and carrying off whole tribes into slavery. Of these lieutenant-governors, Gessi, Lupton and Emin Bey were the ablest.

On each side of the Nile, 500 miles north of the Equator, is the Bahr Gazal. From this province Gessi drove out the great slave-trader, Zebehr, in 1878, and held it firmly till 1880, when, in an attempt to descend the Nile to Khartoum, his boat was stranded. In a morass of the Nile many of the crew died, devouring one another in the frenzy of their hunger, and Gessi was rescued when help came too late to serve him. After his death his province was abandoned for a year, when Lupton re-After his death his province was abandoned for a year, when Lupton re-took it and ruled until he was betrayed into the hands of El Mahdi, in the sum-

mer of 1884.

Two hundred miles south of the Bahr Gazal, on the line of the Nile, and extending within 100 miles of the Equator, and the great lake, Victoria Nyanza, is the province which Emin Bey now holds and has held since 1878. It is separated from the Bahr Gazal by a low-lying district, the Rohl, which has never been fairly incorporated in either province. The perilous navigation of

were borne as a privilege and not as a burden.

At one town brick buildings have been put up; at another a wire-rope ferry over the Nile; at a third a boatbuilding yard, and the two steamboats which Gordon had carried up in pieces were there put together. At Lado, the capital, "everything was arranged and ordered as in a big boys' school. Strict punctuality and strict discipline were enforced. Emin said that he found this the only way in which to rule easily over subjects who needed the restraints of children. There was a roll-call, a lock-up at nightfall, and a curfew; a morning hour after which fires may be lighted; a signal for going out to work in the fields, and so on, all done by bugle call." As a result of this training and discipline, it is said that there were absolutely no crimes to punish.

A leader who could conquer, extend and hold such a domain is certainly no ordinary man. If not a Gordon, he has surely proved himself a worthy lieutenant of his chief. He is known to possess varied scientific attainments, and he can speak and write fluently English and most European languages. His private letters show that his heart is bound up in the success of his labors in Africa, and he refused to desert his post when few would have remained in face of the perils which beset him.

In one of his letters he writes: "If I die, who will take this work up? I think only of that." In another, speaking of his province after El Mahdi's rebellion had gained head, he says: "Time is wanted, but from the seed I have tried to sow, doubtless good fruit will spring up. If I am happy enough to see it, so much the better; if I die, well, 'In magnis voluisse, sat est.'" A man of such power and temper is worth aiding, and it will be an enduring honor to Stanley and his men if by their help Emin Bey is rescued and his free State saved.

There is a secret in Washington involving the name of a Senator's wife, of whom the following is told as having occurred recently. The Senator's wife, in her round of visits, called on a lady whose marriage within a year was one of the events talked of in official society, on account of the high official position of her husband. The Senator's wife, as the story goes, called on the lady's "day," and was received with much cordial politeness, as were all callers. In a little pause after the first salutations, the Senator's wife said, "Is it true, Mrs. Blank, that you were a clerk in one of the departments before your first marriage; and did your rether keep a hearting house?"

The hostess proved equal to the unexpected assault, as she also proved herself a woman of good breeding—which cannot be said of her visitor.

"Yes," she replied, with perfect dignity and good temper, "it is true that I was a clerk in one of the departments before my first marriage. But my mether did not keep a boarding-house. If she had I should have had a home and there would have been no necessity and there would have been no necessity for me to be a clerk, you know." The name of the Senator's wife is the

Saved by a Rattlesnake.

A curious story comes from Brevard county, Fla. John Leonard says that near him lives a family named Belden. They had a daughter, a girl of 13 years old, who had formed an attachment for a big rattlesnake, which would come and go at her bidding and nestle in her lap. The reptile was fond of the girl and would allow her to strike it and roll it about as she pleased. The girl was playing in some bushes near the house, with a snake in her lap. A negro saw the child, and, thinking she was unprotected, slipped upon her, seized her in his arms and was bearing her off into the woods, with his hand pressed over her mouth to striffe her cries. The snake crawled from the folds of her dress, crept around the brute's arm, and struck him on the neck, hissing in rage. The negro dropped the girl, and dashed the snake against a tree. The girl ran screaming toward her home. The negro went only a few yards before he was overcome by the poison, and died shortly after in great agony. he was overcome by the poison died shortly after in great agony.

No man in Southern California is doing more to introduce that wonderful region to the outside world than Ralph E. Hoyt. Those who would learn what Hoyt thinks about Southern California should write to him for a copy of his speech before the Illinois Association, of which he is president, delivered on the 8th inst.

The Mirror Premium Sewing-

## for a \$75.00 High-Arm Sewing-Machin And The Weekly Mirror.

# THE MIRROR Perfect and Improved High-Arm Sewing-Machine.

For \$22 this machine and WEEKLY MIRROR, postage paid, for one year.

This machine is the first of its kind ever offered the public at factory prices, and cannot be bought from agents for less than the regular selling price, \$75. It is the high-arm pattern, has self-setting needle; cannot be run backward; this automatic cut-off for driving belt, which prevents it from being run backward, thus avoiding all dangers of breaking thread or needles. It is a noiseless, light-running machine, accompanied by an illustrated book of instructions that makes everything so plain and simple that any lady or child can master it. We call it the MIB-BOR MIGH-ARM SEWING MACHINE, and we warrant it to give full and entire satisfaction in every case, or it may be returned to us within ten days after the subscriber has received the same, if it falls to be as respresented, at our expense, and the money will be refunded.

The above cut represents our HIGH-ARM MIRROR SEWING MACHINE, the very latest improved machine of the high-arm style; a complete embodiment of all the most recent improvements in sewing machine mechanism; a model selected by us after a careful and critical examination and test of the various machines in the market.

Having arranged with the manufacturers to supply us with these machines in large quantities for spot cash at or very near first cost, we can save our subscribers at least \$55 on the price of each machine. As this is the first time a sewing machine of this charactor has been offered to the public at about manufacturer's cost, we feel confident our readers will promptly take advantage of this opportunity to provide themselves with first-class high-arm machines, which obtained in any other way would cost them almost three times the amount.

We could fill several columns expanitating on the merits of this high-arm machine, but to save the reader's patience we will simply say that it contains all the modern improvements, is strong, simple, durable, light-running and noiseless.

OUTFIT—Each machine is supplied wit

CAUTION—Sewing machine agents will tell you, "Beware of Cheap machines." by the high-arm machine on trial, and if not satisfactory return it. No agents equal for less than \$75. #### HOW TO ORDER.

When you remit us the \$22 for the Machine and WEEKLY MIRROR one year, write plainly the point the machine is to be shipped to, as well as 'the postoffice the paper is to be sent to. The machine should be ordered to the nearest railroad point where the railroad company has an agent stationed, and the name of railroad station, the county and State should be stated. When \$22 are sent for the WEEKLY MIRROR one year and the machine, the freight charges from the factory are to be paid by the subscriber at the point Machine is delivered to.

We would advise subscribers to order machine sent by freight, as the freight charges are about one-third to one-fourth of express charges; and while the time taken in the carrying of the machine is a little longer, they go just as securely and safely as by express. The machines will be shipped direct from the manufactory (Chicago), all set up ready for use. The money must accompany order. Address,

THE TIMES-MIRROR, CO., Los Angeles, Cal.

#### TESTIMONIALS:

"GIVING PERFECT SATISFACTION." Times-Mirror Company: The Times-Mirror Company: The Times-Mirror Sewing-Machine is giving perfect satisfaction; in my opinion it is as good as any 885 machine. I have not done any heavy work on it yet, but I think it will do it all right. J. W. Ross, Pasadena, Cal.

"HIGHLY PLEASED WITH IT. "HIGHLY PLEASED WITH IT.

Los Angeles, Cal., Oct. 20, 1886.

Times-Mirror Company: In reply to yours of 26th would state that. I am highly pleased with the Premium Sewing-Machine I received with the Mirror. Gives every satisfaction; so easy to learn how to manage; does such excellent work; in fact cannot praise it too much, and would not take twice the amount it cost me. I am, yours respectfully, Mrs. Edwin Brown.

THE MORE WE USE IT, THE BETTER WE LIKE IT.

PASADENA, Cal., Oct. 28, 1886.

Times-Mirror Company: I have used your sewing-machine since last July. The more we use it the better we like it. On fine and heavy work it is splendid. We have tried the attachment. In fact, it goes ahead of your advertisement so far.

MRS. S. A. WARE Pasadena, Cal.

"LIKES IT BETTER THAN THE \$125 SINGER."

Los Angeles, Cal., Aug. 1, 1886.
Times-Mirror Company: The machine gives entire satisfaction. My wife likes it better than the \$125 Singer that it has replaced. Yours truly,

Los Angeles, Cal., Oct. 20, 1886.

Times-Mirror Company: The report from the chief engineer of the sewing-department of my domestic establishment is to the effect that the sewing-machine lately furnished by you for \$22 arrived in good order and in due time, and has given entire satisfaction. It runs lightly and with very little noise and performs to perfection all kinds of sewing work with the exception of buttons. Very truly yours,

AS THE HIGH-PRICED ARTICLE."

LOS ANGELES, Cal., Oct. 21, 1886.

Times-Mirror Compony: Having sold hundreds of the Remington Sewing Machines for \$65, which you are now offering with the Weekly Mirror at \$22, I wish to say that the machine you offer is identically the same as the high-priced article both as to material, workmanship and capacity. Being a resident here and an experienced sewing-machine man, I will take pleasure in instructing any one in working the machine, in this place or vicinity.

"VERY MUCH PLEASED WITH IT." DOWNEY, Cal., Oct. 26, 1886.
Times-Mirror Company: I am very much

pleased with my machine, as far as I have used it, and feel safe in saying that I have just as good a machine as if I had given \*65\* for it. Shall advise any of my friends to try this before buying any other, as I think it is fully as good as represented. Very truly,

MRS. MARTHA ALLISON.

"RUNS LIGHT AND EASY—DOESGITS WORK WELL."

PASADENA, Cal., Nov. 29, 1886. Times-Mirror Company: I can say in regard to the machine that it is well liked. It runs light and easy, and does its work well. It is a very cheap machine at the price you furnish it. Yours truly, S. M. SHAW.

"EQUAL TO BEST SHE EVER USED."

COMPTON, Cal., Oct. 29, 1886.

Timer-Mirror Company: The High-Arm

"SUPERIOR IN SOME RESPECTS TO THE BEST.

Los Angeles, Cal., Oct. 20, 1886, Times-Mirror Company: My wife and daughter are well pleased with your Times-Mirror Sewing-Machine. They have used several of the best makes of machines and yet say your machine is superior in some respects to those they have used, and in no way inferior. They were at first afraid, as many are, no doubt, that it is too cheap to be first-class, but are now satisfied that it is as good as machines costing three or four times as much. Yours traly,

S. A. MATTISON.

"TIGHTENED THE SCREW AND SHE RUNS ALL RIGHT."

NEWHALL, Cal., Nov. 3, 1886.

Times-Mirror Company: Yours of the 1st inst. received. Will say in reply that soon after I wrote you I discovered the cause of the trouble. The little tension screw in the shuttle had worked loose and was nearly out, and the shuttle thread, in sewing fast, would catch on the screw and break. I tightened the screw and it now works like a charm; no more breaking thread or irregularity of stitch.

Very respectfully. L. A. MYERS.

Times-Mistror Company: We received
our High-Armed Sewing-Machine in good
order, and I am very much pleased with it,
and consider it one of the best investments
we ever made. It is nicely finished, and
runs strong and light, doing nice work.
Any one needing a good machine I do not
think can do better than invest \$22 in the
machine and Misror. Respectfully yours,

MRS. U. L. SHAPFER.

"MORE THAN SATISFIED AND GLADLY RECOMMENDS IT."

ORANGE, Cal., Oct. 22, 1886.

Times-Mirror Company: I- thank you for sending to us for festimonials, as I had sat my new machine in the parlor, without even threading it, as I was very busy, and had a good machine ready for work I was used to running. So I did not take time to do anything with the new one until I received your letter. Then I brought it out and went to running it to test it. I am more than satisfied, and gladly recommend it to those in need of a machine. I think, I would have gained time to have used it long ago. Our little girl wants to write a letter to Mrs. Otis for the children's column. So if it is not worthy of a place there, just drop it in the waste-basket please. Asever,

MARTHA M. SHAFFER.
